

Language Assistant at the School of Education Sciences (Universidad de Cádiz-Spain)

Betreff: Erasmus Placement Offer-Plurilingual Program-University of Cadiz (Spain)-15-16

Dear all,

At the School of Education Sciences (Universidad de Cádiz-Spain), we are offering internships within the Erasmus Placement offer, to participate in a Plurilingual Program as trainers of university language students in conversation practices.

We contact you as one of the universities with which we have an Erasmus exchange agreement. We would like you to give widespread announcement of the offer, as earlier applicants -those to apply for a position on a 2-semester basis- should have submitted their applications **before September 5th, 2015**. We send you the details of the offer on the attached document. We are offering positions for language assistants in three languages: **English, French and German** (native speaker or at least C1 level)

We would like you to encourage likely candidates to submit their applications or contact us by email for anything concerning the placements offered.

Thanks in advance and hope this will be another occasion to encourage the already smooth cooperation between our universities.

Kind regards,

Elena Romero Alfaro
General Coordinator
